BIRKY STUDIO

White Label Partner Brief

Resell AI agents, receptionists, lead generation and websites under your own brand. You keep the client and the relationship, we build, run and support everything behind the curtain, and you keep half of every sale.

THE MODEL IN ONE PARAGRAPH

You buy from us at **half of retail**. You sell to your client at retail or above, on your own invoice, under your own brand. Your client never hears our name. We build the system, keep it running, and stay the second line of support so you always have someone to hand a technical problem to. That is the entire arrangement: no commission to chase, no revenue share to track, no waiting for us to pay you. The margin is in your hands from the first invoice.

Worked example, the Voice Receptionist

Your client pays you	$550
You pay Birky Studio	$275
You keep	**$275**

Add a monthly care plan and the same split applies every month: your client pays $97, you pay us $48, you keep $49 for as long as they stay.

PRICE LIST

Partner price is half of retail, rounded down to the dollar, so the odd dollar always lands on your side. Retail prices are the published birkystudio.com prices, and they are your floor.

FIVE RULES, SO NOTHING HAS TO BE NEGOTIATED TWICE

- **Retail is the floor.** Sell at retail or above. Undercutting other partners, or us, is the one thing that ends an agreement.
- **Partner pricing is for partners.** Never offered to an end client as a discount, never published outside a partner conversation.
- **You own the client.** We never contact them directly and never sell to them afterwards.
- **Your brand only.** No Birky Studio logo, name or link in anything your client receives.
- **First 30 days of support included** on every build, the same as our own clients get.

HOW A DEAL RUNS

1. **You find the client** and sell it your way, at your price. We are not in that conversation.
2. **You send the intake.** One short form per client: business details, numbers, brand colours, opening hours, and the name the agent should use. Nothing gets built without it.
3. **We confirm the quote and the timeline in writing**, usually inside one business day.
4. **You collect and we build.** Half on order, half at launch, or in full under $500. Base Agent is about 15 minutes of build plus a call to connect accounts, Text Receptionist is live in 1 to 2 days, Voice Receptionist in 2 to 3 days, websites in 2 to 3 days.
5. **We do the launch check with you** before your client sees anything, then you invoice them and keep the difference.

SUPPORT, ONE CLEAR PATH

You are the first line

Your client messages you, you message us through one agreed channel. That keeps the relationship and the credit with you, and keeps us invisible.

We promise

Urgent faults, meaning the agent is down or calls are failing, answered within 4 business hours. Everything else same business day, 24 hours at the outside. Escalation to Luna directly whenever you need it.

WHAT YOU CAN OFFER FROM DAY ONE

AI agents	Catch every enquiry from site and WhatsApp, qualify it, save it to the CRM, reply instantly, follow up on its own. Bilingual English and Spanish.
AI receptionists	Voice and WhatsApp, 24/7, ideal for anyone missing calls after hours.
Lead generation	Verified, scored prospect lists plus the outreach that works them, for anyone hunting new clients.
Reviews and content	Review Engine turns past clients into Google reviews, and the content products keep the profile and blog alive.
Websites	Bilingual, mobile-first, delivered in 2 to 3 days.

Next step. Tell us who you sell to and we will tell you which product fits them first. Then one short call, and your first client can be live this week.
